F43896A

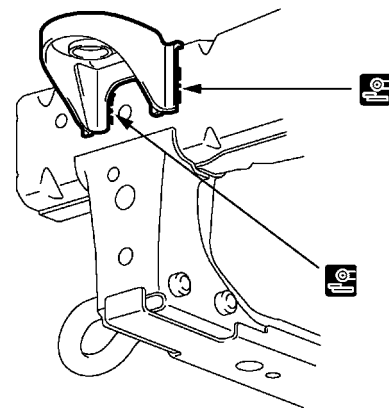

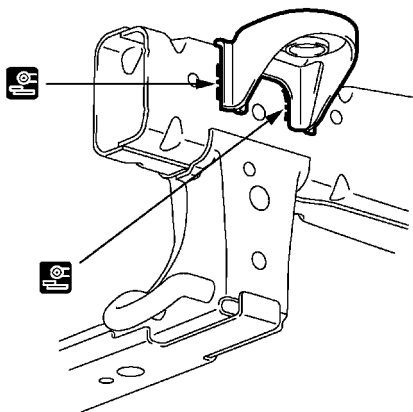

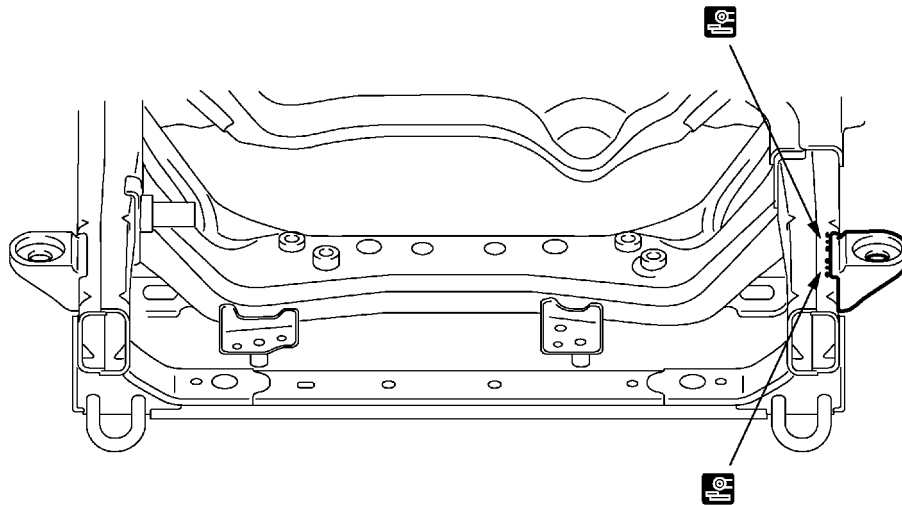

With the frame side rail plate removed.

## Symbol meaning

 : Cut with Disc Sander etc.

F43352B

## REMOVAL

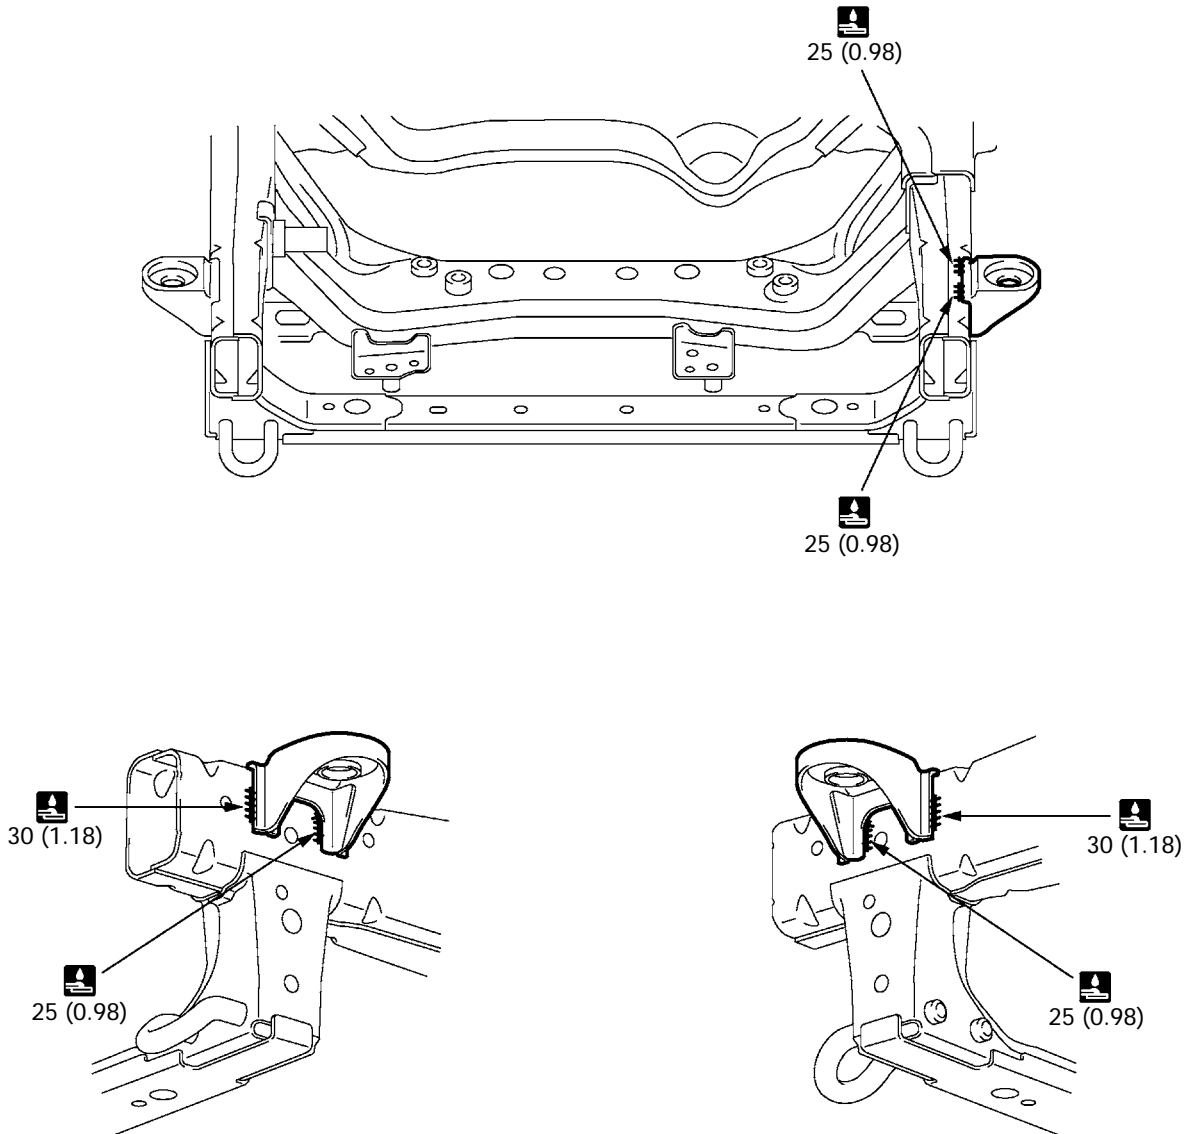

F43352

## Symbol meaning

 : Fillet Weld

F43353B

## INSTALLATION

mm (in.)

F43353

## INSTALLATION POINT

- 1 Make sure that proper welding can be performed by setting up the welding conditions as necessary before performing work.
- 2 Before installing the cab mounting No. 1 brackets, set the cab (upper body) on the vehicle frame and confirm the cab mounting No. 1 brackets' installation positions.
- 3 To prevent heat deformation, weld the right and left side of each part before continuing to the next part.
- 4 After applying the top coat, apply anti-rust agent to the internal panel portion of the closed section structural weld points.
